MOROCCAN, EDHEC-2016
INVESTMENT BANKING ANALYST,
J P MORGAN - LONDON**

THE IMPACT ON MY TEAM-WORKING SKILLS

"EDHEC was the natural choice for me: it offers the best Masters in Finance and doesn't just focus on academic study like many other business schools. The practical course really helped me to understand the financial business world and subsequently choose a career in investment banking. I learned and perfected many skills during my time at EDHEC, the most important being team working and adapting to different nationalities. The programme is quite challenging as the workload is tough, but if you want to succeed you need to be organised. EDHEC taught me these life skills that will follow me wherever I go!"

**ANDREA CRUZ BAYONA, COLOMBIAN,
EDHEC- 2017,
MSC IN CORPORATE FINANCE & BANKING,
EIFFEL SCHOLAR**

THE IMPACT ON MY PROFESSIONAL OUTLOOK

"In order to enhance my professional background, I've decided to study a master's degree abroad. I've chosen EDHEC Business School because of its excellent reputation, its expertise in the finance field and its interest in designing academic programs focused on applying theory to real cases on businesses and the economy. I am from Colombia, a country that has been affected for more than 5 decades by armed conflict, drug trafficking, and kidnapping. Fortunately, the war seems to be arriving to the end, opening the doors to the post-conflict era. In this new stage, the country will require outstanding professionals that contribute to this promising future and I would like to participate in it from the financial field. Being awarded by the Eiffel Scholarship was not only an honor to me because of the prestigious of that program, but also a considerable economic help to pursue that dream of studying in France and in one of the top business schools."
